ck854603@gmail.com | 918546031083

PROFILE

AI Engineer with expertise in AI Chatbots, Workflow Automation, Generative AI, and Machine Learning. Experienced in building AI-powered chatbot systems using Python, OpenAI API, n8n, WhatsApp Cloud API, and Google Sheets. Hands-on experience in Machine Learning, Deep Learning, Computer Vision, Agentic AI, and AI application development through multiple real-world and academic projects.

EDUCATION

Allen House Institute Of Technology
Electronics And Communication

Kanpur Uttar Pradesh
July 2014 - June 2018

WORK EXPERIENCE

Bonhoeffer Machines
AI Engineer

Gurgaon Haryana
July 2024- Present

- Developed an end-to-end WhatsApp Campaign Management System using Python, Google Apps Script, Meta WhatsApp Cloud API, Maytapi, and Google Sheets.
- Automated bulk messaging, scheduled campaigns, manual campaigns, delivery/read status tracking, and provider-based message routing for WhatsApp.
- Built WhatsApp AI chatbots using the OpenAI API, Meta WhatsApp API, Webhooks, and Google Sheets for automatic customer replies and lead management.
- Developed an AI-powered RAG chatbot using Python, OpenAI API, Qdrant Vector Database, and Flask.
- Integrated PDF, product catalogue, and company knowledge data into a searchable knowledge base using embeddings and semantic retrieval.
- Built chatbot systems for product details, pricing, PDFs, catalogs, and customer support automation.
- Managed and optimized Google Ads & Meta Ads campaigns for lead generation and marketing.
- Created dashboards using Python and Streamlit for reporting and analytics.

Anveya Living Pvt Ltd
CRM Executive

Gurgaon Haryana
August 2023 - June 2024

- Managed social media operations including content planning, scheduling, and posting across platforms.
- Monitored engagement and optimized content using datadriven insights.
- Analyzed performance metrics to improve reach, interaction, and campaign effectiveness.

Money Mitra It Solution
Team Leader

Gurgaon Haryana
April 2019 - June 2023

- Led and managed a customer service team to consistently achieve SLA, FCR, and performance targets, ensuring smooth day-to-day operations.
- Supervised team productivity, monitored KPIs, and provided coaching/training to improve service quality and team efficiency.
- Managed customer escalations and resolved complex issues while maintaining high customer satisfaction levels.
- Created and maintained daily, weekly, and monthly MIS reports for performance tracking and business decision-making.
- Performed data validation, cleaning, and quality checks to ensure 100% reporting accuracy.
- Worked extensively with Excel (Pivot Tables, VLOOKUP, Advanced Formulas) for reporting, analysis, and operational insights.
- Collaborated with cross-functional teams to improve processes, reduce response time, and enhance operational efficiency.

AI/ML Projects

AI Resume ATS System

- Developed an AI-powered ATS Resume Screening System using Python and NLP techniques.
- Automated resume parsing, keyword matching, and candidate scoring using structured resume-processing workflows.
- Applied NumPy and Pandas for data preparation and analysis within the resume-processing workflow.

WhatsApp AI Campaign & Automation System

- Developed an automated WhatsApp Campaign Management System using Meta WhatsApp Cloud API, Google Apps Script, Webhooks, and Google Sheets.
- Built scheduled & bulk campaigns, delivery/read tracking, template messaging, multi-provider routing, and automated customer responses.
- Integrated OpenAI API for AI-powered customer query handling and automated replies.

Company RAG Chatbot – AI-Powered Knowledge Assistant

- Developed an AI-powered RAG chatbot using Python, OpenAI API, Qdrant Vector Database, and Flask.
- Integrated company documents, product catalogue, and knowledge data using embeddings and semantic search.
- Implemented AI query planning, metadata filtering, product/model lookup, counting, and list-based retrieval.
- Built context-grounded responses to reduce hallucinations and deployed the chatbot API on Render.

Intelligent AI Attendance System

- Built a face recognition-based attendance management system
 - Automated attendance tracking using Computer Vision and Deep Learning.
-

TECHNICAL SKILL

AI & Generative AI:

Generative AI & LLMs, OpenAI API, RAG, Prompt Engineering, AI Chatbots, Agentic AI, Qdrant Vector Database

Machine Learning & Data :

Python, NumPy, Pandas, Machine Learning, Deep Learning, Computer Vision, Data Cleaning & Analysis, Data Visualization

Automation & APIs :

n8n Workflow Automation, WhatsApp Cloud API, Webhooks, REST APIs, Google Sheets Automation, Google Apps Script

Development :

Flask, Streamlit, HTML, CSS, JavaScript, Git, GitHub, Render Deployment

Marketing & Operations:

Google Ads, Meta Ads Campaign Management, Lead Generation, CRM, Campaign Performance Analysis, Excel, KPI Monitoring, Team Leadership

Certification :

AI/ML – Apna College | 2026

Completed training in Python, Artificial Intelligence, Machine Learning fundamentals, and practical AI concepts.
